**Emcee (Music): Riley Armstrong—**

Originally from Northern Alberta Canada, Riley Armstrong has spent his entire adult life working as a professional musician. With Nashville record label deals, North American tours, and several albums under his belt, Riley moved to California in 2008 and began creating a new professional niche for himself as a music-comic.

Riley's songs and performance strike the hard-to-hit target of true family entertainment. His content is 100% clean, his musical skills are excellent and his style appeals to a broad demographic. We've all heard the phrase "fun for the whole family" too many times...but that's exactly what Riley's concerts are! With his engaging stage presence, impressive musicality, and hilarious between song commentary, once you've attended one live show, you won't want to ever miss another.

Riley's beloved wife, Shannon, and their children, Zeffren and Everley, provide all the love, happiness, and occasional songwriting inspiration a music-comic could dream of.
